Thomson Reuters uses necessary technologies for core functionality, security, privacy choices, and service delivery. With your permission, we also use optional technologies to remember preferences, understand usage and trends, and support marketing, advertising, and measurement. These may be set by us or third parties supporting these purposes. Accept or reject optional technologies, or select **Cookie Settings** to customize. Change preferences anytime via **Cookie Settings** in the footer.

See our **Cookie Statement** and **Privacy Statement** for details.

You may access AI-Assisted research in various ways.

In this situation, we will begin by telling CoCounsel we want to do legal research.

1. Enter a legal research request into the chat, and then select the send icon. CoCounsel will take a moment to review your request and then provide a confirmation.

   > **Note:** Example legal research request: **I need to do some legal research to understand if a shareholder is authorized to bring an action against a California director or corporation for failure to disclose a conflict of interest**.

2. Review CoCounsel's response.
   a. In the upper right corner of CoCounsel's response, the AI-Assisted Research skill is confirmed.
   b. In **Sources**, the source is **AI-Assisted Research**. You may change the source to **Ask Practical Law AI**.
   c. Under **Legal question**, the legal research request is confirmed. You may edit this.
   d. If you no longer need assistance, select **Cancel**.
3. When you are ready to proceed, select **Start AI-Assisted Research**. CoCounsel will begin its work and show its progress
   a. To receive a notification when the results are ready, select **Email me when complete**.
   b. To stop CoCounsel's work, select **Cancel**.
4. When your results are ready, select **View results**. The results window will appear.
5. Review the results.
   a. At the top, CoCounsel restates the legal research question.
   b. Then CoCounsel provides a response with hyperlinked in-line citations and resource reference numbers in brackets.
      i. To go to a resource in Westlaw Precision, select the in-line citation. CoCounsel will open that resource in Westlaw.
      ii. To review a resource within the list of all resources, select the resource reference number in brackets. CoCounsel will open the side panel and scroll to that resource.

Thomson Reuters uses necessary technologies for core functionality, security, privacy choices, and service delivery. With your permission, we also use optional technologies to remember preferences, understand usage and trends, and support marketing, advertising, and measurement. These may be set by us or third parties supporting these purposes. Accept or reject optional technologies, or select **Cookie Settings** to customize. Change preferences anytime via **Cookie Settings** in the footer.

See our **Cookie Statement** and **Privacy Statement** for details.

6. To refine your result, select **Refine result**. The follow-up question box will appear.
7. Enter your follow-up legal research question and then select the send icon.

> **Note:** Follow-up refinements may change the jurisdiction or provide more detail about the legal issue or key facts.

8. To copy the results to paste somewhere else, select **Copy**. To download the results as a Word Document, select the ellipsis icon, then select **Download**, and then **Word Document**. The results will download.

Limitations

Westlaw Precision with AI-Assisted Research analyzes Westlaw's comprehensive primary law authorities. You can make up to 3 jurisdiction selections, including any 3 state jurisdictions, any 3 federal jurisdictions, or any combination of state and federal jurisdictions, including "nationwide".

> **Note:** Selecting more than 3 jurisdictions defaults to a nationwide search.

AI-Assisted Research doesn't yet support:

- Finding documents by citation, such as "5 U.S. 137"
- Boolean or fielded queries, such as "summary judgment" /p "breach of contract"
- Questions about particular documents, such as "Does the Jones v. Smith case include a situation with a supervisor as a defendant?"
- Requests for analytics, such as "Which law firm has the most torts cases in 2023 so far?"
- Commands to execute certain tasks, such as "Summarize the Jones v. Smith case" or "Email me the Jones v. Smith case and any cases that have negative KeyCite treatment"
- Requests for comprehensive document retrievals, such as "Find all cases granting summary judgment on negligent misrepresentation claims"
- Instructions to filter supporting authority, such as "Exclude any unpublished cases or criminal regulations"
- Requests for timing or mathematical calculations, such as "By which date do I need to file a notice of appeal for a judgment entered on July 8th"

Thomson Reuters uses necessary technologies for core functionality, security, privacy choices, and service delivery. With your permission, we also use optional technologies to remember preferences, understand usage and trends, and support marketing, advertising, and measurement. These may be set by us or third parties supporting these purposes. Accept or reject optional technologies, or select **Cookie Settings** to customize. Change preferences anytime via **Cookie Settings** in the footer.

See our **Cookie Statement** and **Privacy Statement** for details.

- Write a clear, concise, and focused query that is 1-2 sentences long
- Provide relevant facts, but not extra information
- Do not write a query in the style of a prompt, command, or instruction
- Focus on a single issue or question
- Avoid including proper names of people or parties

For each AI-Assisted Research result, you may ask up to 5 follow-up questions. Follow-up questions must be asked within 24 hours of the initial question.

AI-Assisted Research will provide the most relevant supporting materials, including:

- **Cases, statutes, and regulations:** Between about 10-20.
- **Administrative decisions and guidance:** The most relevant 3 results.
- **Practical Law guidance:** The most relevant 3 results, but only if the connected Westlaw Precision account also has access to Practical Law.
- **Additional secondary sources:** The most relevant 3 results.
- **News:** The most relevant 3 results.
